

Dr. Pascal Binda –

Ph.D. in Chemistry with emphasis in inorganic/organometallic and organic chemistry from University of North Dakota, USA.
B.Sc. in Chemistry (First Class Honors) from University of Buea, Cameroon.

Dissertation topic: Synthesis and Characterization of Lanthanide Phenolate Compounds and their Catalytic Activity towards Ring-Opening polymerization of cyclic esters.
Research Interest: Catalysis and Biodegradable plastics, Renewable energy research and Detergent chemistry
